

Sean Spiller understands

what New Jersey needs.

We know that Sean Spiller will be a great education governor. But Sean's campaign is for everyone who cares about building a better future for New Jersey. That's why Sean's vision for the future includes great public schools in every community, but also so much more.

Sean is committed to keeping New Jersey the wonderful place that it is to live, work, and raise a family while also working to address affordability in all aspects of life in the Garden State.

That's why Sean supports:

- Ensuring quality affordable early childcare and education in every community.
- Making housing affordable for all, through smart policies to keep rents lower and make it easier for families to find and afford a first home.
- Keeping local property taxes down through state investment in local communities.
- Assistance for families saving for college or career training.

And don't just take his word for it.

Look at his record. Sean is:

- A civic leader who used his time in local office to implement the first ever rent control ordinance in Montclair.
- A union leader who helped create and implement a high quality, affordable healthcare plan for school employees in New Jersey.
- A seasoned problem solver who believes in the power of collaboration with stakeholders to tackle big challenges and achieve great outcomes.
- A strong proponent of democracy who believes the role of government is to support the success of individuals and communities, not to overburden them with bureaucracy.

*Sean's campaign is for us, for our students,
for our neighbors and for New Jersey's future.*
