

# Sean Spiller *is the* **choice** for **ESPs**

**Educational Support Professionals are the heart and soul of New Jersey's public schools.**

When students are struggling in the classroom, you are there to help. When they are hungry, you are there to feed them. When there's a problem, you are there to help solve it. You are often the first face they see in the morning and the last one they see as they leave. New Jersey ESPs deserve a governor who knows how hard you work, who respects your contributions to student success, and who will fight for your professional rights and your economic security. I'm proud to represent nearly 50,000 ESPs as

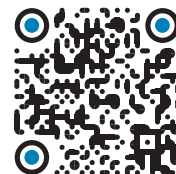

President of NJEA, and I will continue to stand with you and for you as Governor of New Jersey.

**SPILLER** for  
**GOVERNOR**
