

Sean Spiller *fights for* Health & Safety

I'm proud to represent nearly 200,000 NJEA members across New Jersey, including staff who work hard every day to make sure our schools are clean, safe and healthy.

The health and safety of students and staff are a top priority for me as President of NJEA. I serve as a board member of the New Jersey Work Environment Council (WEC), where we advocate for all working people in New Jersey. NJEA is also the primary funder of Healthy Schools Now, a project of WEC focused on making sure our schools meet the highest safety standards in order to provide the best possible working and learning conditions for everyone.

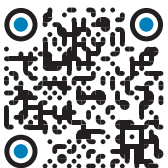

I'm a proud supporter, along with NJEA, of Sustainable Jersey for Schools, an organization that provides grants to help schools become leaders in environmental innovation and the fight against climate change. And NJEA consistently fights for legislation to make sure our schools are updated, safe, comfortable and toxin-free.

I will carry those same values and commitments into the Governor's office. Every New Jersey family deserves clean air, clean water and safe places to work, learn and play. I want that for my children, for your children and for all of us who are proud to call New Jersey our home.

THIS IS *our* CHANCE.
