

Sean Spiller stands up for democracy!

***Democracy and personal freedom
are under threat in America.***

With a new presidential administration and the rise of Project 2025, New Jersey needs a governor who will stand up for the freedom and democratic values that America and New Jersey deserve. Sean Spiller will not back down when the rights and freedoms of New Jersey residents come under attack.

Democracy ★★★

"The right to vote is sacred, and is too often weaponized by MAGA extremists against people of color and young people. Sean will make voting easy, fast, and accessible for all New Jerseyans and he'll ensure that our votes are counted fairly even when people like Donald Trump try to overturn the will of the people."

Reproductive Freedom ★★★

"Sean will always stand for a woman's right to make her own health care decisions and to have agency over her own body. He'll fight back against Project 2025 and its attempts to ban abortions, contraceptives, and IVF, and to its plan to have the government track pregnancies to persecute women. He'll make sure that survivors of rape, incest, and human trafficking always have all the support they need from New Jersey."

LGBTQIA+ Rights ★★★

"Sean is a strong ally to the LGBTQIA+ community, and will always fight for their right to marry who they love, to start a family, and to be free from discrimination by employers or corporations."
